Dear Mr. Powell:

I want to thank you for the Carbondale Calendar of 1983. I was very impressed and although I have not read the whole calendar, I intend to do so.

I have purchased several more calendars for the purpose of sending them to prospective physicians who write and ask about the City of Carbondale. Perhaps the Historical Society would be interested in producing a colorful brochure to be distributed to prospective Industrial and Professional people who may be interested in relocating in the area. On occasion we have duplicated what material was available at the hospital to satisfy this need.

If I can be of any assistance with this project, I would be more than happy to help. I know there is a real need for a brochure of this type.

Sincerely yours,

Sister M. Cephas Ryan
